# How to use?

1). Please choose a library first before you use the dictionary.

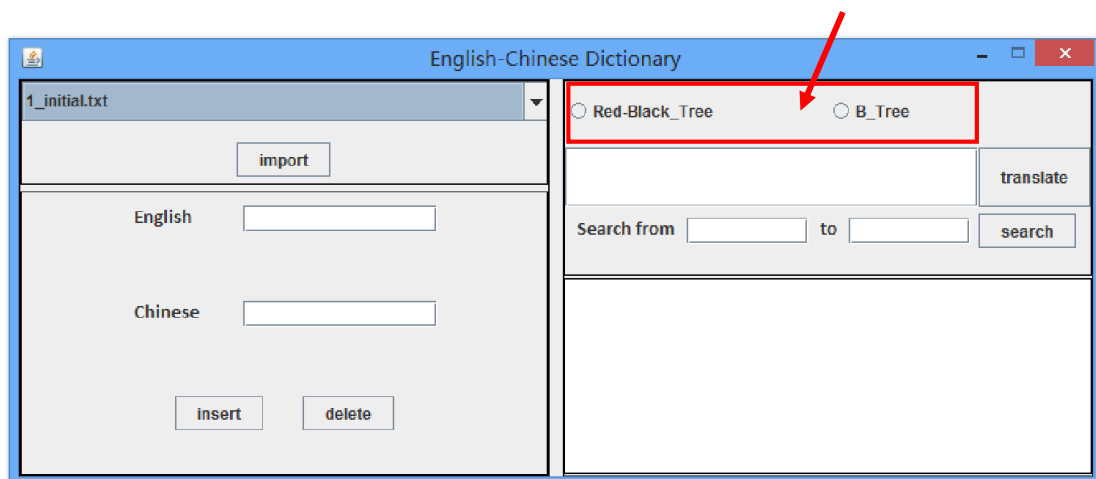

2). Every time you choose a new library, you have to click "import" to confirm it.

3). You can insert or delete a single word in the text field at the left side.

4). If you want to translate or search, please choose a kind of search tree first.

5). You can translate or search word, all the result will show at the blank field.

6). You can insert or delete a sequence of words. Please import the list and confirm first. Then click insert or delete. The result will store at "out/rbt.txt" and "out/bt.txt".

That's all. Welcome to use!
